To Whom It May Concern,

I am writing to express my concern over an article I received about a proposed Government seizure of all retirement funds.

I am opposed. I have been contributing to these funds for many years in hopes that they would be there when my best guess is that Social Security won't be; thanks to the Governments mismanagement of that program.

Further, I do not believe anyone else but me or my heirs are entitled to the fruits of my life's work. I can give it away if I so choose, but no one has the right to take it away.

If the Government is broke, do what all the rest of us do and reduce your consumption. Shrink your work force and budget. Stop printing money and trying to figure what assets you can seize to cover the bonds when China won't buy any more.

Now get back to the job you were sent there to do in a responsible manner. Fail and we'll replace you in the next election cycle regardless of your party.
